CISA REGION 8
Water & Wastewater Sector Cyber Incident Response Webinar

The Water and Wastewater Sector has been impacted by various cyber events, including unauthorized access, and ransomware. Continued compromises or failures could cause cascading impacts across critical infrastructure.

CISA Region 8 invites you to the *Region 8 Water & Wastewater Sector Cyber Incident Response Webinar* to learn more.

OVERVIEW

The webinar will review the Water and Wastewater Sector Cybersecurity Toolkit, including the Incident Response Guide which outlines how water utility owners and operators can expect to work with federal partners as they prepare for, respond to, and mitigate the impact of a cyber incident.

The toolkit consolidates key resources at every level of cybersecurity maturity and provides incident response best practices and information on federal resources to enhance the security and resilience of the Water and Wastewater Sector.

INTENDED AUDIENCE

Stakeholders from Region 8 (Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming).

- Private and public sector water utility owners and operators, specifically personnel dedicated to cyber incident planning and response.
- Dams sector owners that manage water supply facilities.
- Emergency managers, law enforcement/first responders, security directors, safety personnel, and planners.

For more information about Water and Wastewater Security visit https://www.cisa.gov/water, access the Water and Wastewater Sector – Incident Response Guide, or email CISA Region 8 at CISARegion8Outreach@cisa.dhs.gov.
